A JOURNEY IN THE
SEABOARD SLAVE STATES,
By Frederick Law Olmsted.

One volume, 12mo. 725 pages, with wood cuts. Price $1,50

This work is written in the quiet, candid, good-humored, and manly style which rendered the author's previous narrative of travel so widely popular. The descriptions of Southern Life and Scenery are picturesque and dramatic, and much more detailed and accurate than those of most other writers. The book, in fact, offers just that kind of information about the south and its institutions, which the public now demands; less of what is extraordinary and exceptional, and more of that which illustrates every-day life and general character, than has been before attempted. In matters of controversy, the author is careful and courteous, but expresses his own conclusions frankly and unmistakeably.

The *Southern Cultivator* predicts that this book will have "greater influence on the minds of voters," than Uncle Tom's Cabin has had.

The *New York Daily Times* says of it: "This work will be by far the best yet published on the subject."

The *New Orleans Delta* observes of the author:—"Prejudiced as his opinions were, he was not a wilfully dishonest man or an unfair writer. We would welcome a few more men of his calibre amongst us—prejudiced; but manly and honest."

IMPORTANT TO EVERYBODY.

FOR the last three years I have been engaged in a business, known only to myself, and comparatively a few others, whom I have instructed for the sum of $100 each, which has averaged me at the rate of from $3,000 to $5,000 per annum, and having made arrangements to go to Europe next Spring, to engage in the same business. I am desirous of giving full instructions in the Art to every person who will remit me the sum of ONE DOLLAR. I am induced from the success I have been favored with, and the many happy acknowledgments I have received from those I have instructed in the Art, and who are now making from $10 to $15 per day, to give every person a chance to come into possession of this valuable means of making a small fortune. There is no HUMBUG about the business herein alluded to. References of the best class can be given as regards its character, and I can also refer to persons in Philadelphia as well as in this city, who have, within four months embarked in the business, and who will testify that they are making from $3 to $5 per day at the same. It is a business in which either ladies or gentlemen can engage, and with perfect ease make a very handsome income. Several ladies in various parts of Pennsylvania and Maryland, whom I have instructed in the Art, are now clearing from $8 to $6 per day. It is a *Genteel Business,* and but a few shillings are required to start it. Upon receipt of $1,00, I will immediately send to the applicant a printed circular, containing full instructions in the Art, which will be perfectly understood upon being once read.

of a superior character. The work discusses all subjects openly and freely, but in a manner which can give no offence, even to the most fastidious—as is fully acknowledged by the secular and religious press of all denominations who award the NATIONAL, at the same time of being not only the cheapest, but one of the most beautifully printed magazines in the United States, and one which should be on the table of every family in the land.

ATROCIOUS JUDGES!
LIVES OF JUDGES,
INFAMOUS AS
Tools of Tyranny and Instruments of Oppression!
BY JOHN, LORD CAMPBELL.
With an APPENDIX, containing the
CAS OF PASSMORE WILLIAMSON.
Edited, with an Introduction and Notes,
BY RICHARD HILDRETH.
One Volume, 420 pages, 12mo. Price $1,00.

THE various man-hunting expeditions which have, within the last few years, been made into the North, and the numerous trials, including the Jerry, the Sims, the Burns, and similar cases, and the crowning act of infamy enacted by
JUDGE KANE UPON PASSMORE WILLIAMSON,
have excited the profoundest indignation and alarm. The Publishers believe, therefore, that this amply attested and clearly drawn record of what judges have done, will lead the people to see what, if unchecked, judges may still do.

NOW READY!
LANMERE.
BY JULIA C. R. DORR,
Author of "Farmingdale."
1 vol. 12 mo. 447 pd. Price $1,25

The scene of this story is laid in Lanmere, a pleasant country village. The principal persons are as follows:—
MRS. ALLISON,
A strict mother, cold immovable as stone;
MARGARET ALLISON,
A pattern of female placidity and propriety;
BESSIE ALLISON,
A little mischief—sweet, pretty and loveable;
MR. FLOYD,
The Village Pastor—a man of goodness, truth and piety
WILLIAM WENTWORTH,
Honest and honorable—truthful and self-sacrificing
WALLACE BUCHANANN,
A mystery to all who do not know him;
ELLEN WENTWORTH,
Bessie's friend and confidant;
PAUL WARREN,
A faithful minister, without the ostentation of outward piety;
GRACE WARREN,
His sister—a true woman; the consoler of the afflicted and the supporter of the lowly.

Other characters are introduced, and the story is replete with varied incidents and descriptions. In the gradual unfolding of the characters of the two sisters, Bessie and Margaret, the author has displayed consummate skill; and she has imbued her narrative with such interest, that the reader is chained to her pages from first to last.

News of the Morning.

A correspondent of the Tribune under date of Jan. 19, writes that another collision had occurred between the Free State men and their antagonists, and that two of the latter were killed.—Great excitement was said to exist in the Territory, and from all quarters men were hurrying to the scene of action.

The details of the *Arabia's* News will be found in our telegraph columns. Her news was received early Friday morning, but as the gas would not burn and we had no other means of lighting the office, we were obliged to go to press without it.

The Republicans came within *one* vote of securing a plurality rule in the House yesterday.—Various new candidates were presented and close voting was the order of the day.

No business of much importance was transacted in either Senate or Assembly yesterday, and the Senate adjourned till Monday.

Valk and Pelton have concluded not to make targets of themselves at present.

The *Arabia's* news had a depressing influence on the New York Market.

Milwaukee and Mississippi Rail Road.

SEVENTH ANNUAL REPORT OF THE DIRECTORS.

We have read, with no little interest, the Seventh Annual Report of the Directors of the Milwaukee and Mississippi Rail Road Company, which has just been published in anticipation of the annual meeting of the Stockholders, to be held on the second Tuesday (being the 12th) of February, inst. Those who remember and can retrace each step in the progess of this Pioneer Rail Road enterprize of our State—its small beginnings, its slow and doubtful advance, the difficulties which hedged it about, the obstacles which retarded and often checked its onward march, the perils which it encountered and survived, and the many lets and hindrances which, time and again, threatened to bring it to a sudden and disastrous stop—can appreciate the satisfaction which the Stockholders must feel in the ample evidence, embodied in this report, of the assured success, established credit and productive character of the M. & M. Rail Road. For this Report is not merely a recital of the doings of the Directors, during the past year, but an able, philosophic and conclusive exposition of the policy which has always governed the Board, and of the grounds on which they found their conviction, that "it will not only prove one of the "best paying roads in the West, but will secure "and maintain, for all time and against all competition, the business of the most important "mineral and agricultural portions of Wisconsin, "and to Minesota and Northern Iowa, will prove "the shortest and cheapest route in their business "intercourse with the Eastern States."

The report opens with a brief reference to the successful business of the year just past, and expresses the confident hope that before the close of the current year, the road will be completed to the Mississippi at Prairie du Chien. A contract for that purpose was entered into, in April last, with Messrs. Cook & Lockwood, who engage to finish the road to the Mississippi, by the first of November next, furnishing everything, and expending $100,000 in depot buildings, for the sum of $2,014,500—payable $1,230,000 in bonds of the company, 250,000 in Stockholder's mortgages, $100,000 in cash and $434,500 in stock of the company, all taken at par. As the entire grading to Prairie du Chien is well nigh finished, and all the rails, chairs and spikes purchased and already in Milwaukee, or to be delivered there at the opening of navigation, no doubt whatever is entertained of the ability of the contractors to complete the work by the time specified. By this contract, the company are to give the contractors $1,230,000 in bonds, and as the road was already mortgaged for previous issues of bonds, amounting to $1,250,000, it was deemed advisable, as well to provide for these last bonds, falling due in '61, '62 and '63, as to pay the contractors, to make a new issue of bonds, to the amount of $2,250,000, bearing 8 per cent interest, payable semi-annually in New York, for which the entire line of the road was mortgaged. At the same time, it was resolved to *set apart* annually, from the savings of the road, the sum of $50,000, as a *sinking fund*, to be employed exclusively in re-purchasing the mortgage bonds of the company, at, or under par, or otherwise invested, so as, with the accumulated interest, to constitute a fund amply sufficient to extinguish the entire mortgage debt of the company before its maturity. This wise measure had the happiest effect upon the credit of the company, and met the general approval of Stockholders and eastern capitalists.

Pursuant to the resolutions thus adopted, $650,000 of these new bonds were issued last year and sold on account of the contractors; $600,000 additional will be sold, on the same account, during the present year, and the remainder issued only so fast as may be necessary to redeem the like amount of outstanding bonds, maturing in '61, '62 and '63. On the 31st of December last, the first deposit for the *Sinking Fund*, was made with the U. S. Trust Company, New York, and invested in the purchase of *fifty-eight* of the new Bonds, amounting to $58,000 of the indebtedness of the Company. The total amount of expenditures, for all purposes whatsoever, to the 31st Dec. last, was $3,378,757, of which $635,243 was on the line west of Madison, and $20,379, for the right of way between Janesville and Monroe, and depot grounds at those two places. To complete the main line to Prairie du Chien, and the Southern Wisconsin road to Monroe, will cost, according to contract, $2,179,258, and the Company have resources, in stock subscriptions, bonds and cash, amounting to $3,002,426 98.—The total cost of the road, completed, to Monroe on the S. W. Line, and to the Mississippi, on the Main line, will be $5,758,015. Add $241,985 for additional equipments contracted for, and it makes the entire aggregate cost *six millions of dollars*. For this, the Company will have;

Main Line,	195 miles.
S. W. line to Monroe,	43 "
Side tracks,	30 "
Total length,	268 "

This will make the average cost of the road, including side-tracks, equipments, depot grounds and buildings, and all other expenditures whatsoever, only *twenty-two thousand four hundred dollars per mile.*

It is estimated that the gross earnings of the main line, the first year after it shall have reached Prairie du Chien, will be $1,500,000, and of the Southern Wisconsin line from Monroe $200,000—but calling their aggregate earnings only $1,500,000, and allowing 50 per cent. for operating expenses, (which is 10 per cent. above the actual cost thus far,) it will leave for net earnings $750,000, which is equal to 12½ per cent upon the whole cost of the road of six millions. But a large proportion of this cost, it must be remembered, is represented by bonds bearing 8 per cent. interest; so that the actual dividend to stockholders will be increased in a corresponding ratio

The following table shows the gross earnings, operating expenses and net earnings for the last two years:

	1854.	1855.
Gross earnings,	$456,864 78	$691,244 79
Operating expenses,	149,212 37	273,797 06
Nett earnings,	307,652 41	417,447 73

On the 30th of June last, the Directors declared a cash dividend of 5 per cent., and on the 5th of January a dividend of 5 per cent. in cash and 7 per cent. in stock; making, for the year, a total of *seventeen* per cent. Besides, there still remained, from the net earnings of the year, a surplus of $105,521 15, which, with the surplus on hand last year, ($64,043 65,) making a total of $167,564 80, has been set apart and appropriated to relaying the track, as may be required, to meet contingencies, and to pay construction bonds falling due in 1859. Surely, a more satisfactory exhibit of a year's Railroad business could not well be made.

The Report next proceeds to treat of the Southern Wisconsin Rail Road, extending from Milton on the main line, through Janesville, to a point opposite Dubuque on the Mississippi river. The first section of this road, from Milton to Janesville, 8 miles, was constructed in 1852, and has contributed as much as any other equal portion of the road, to the aggregate traffic and travel. But no further progress in that direction was made till the last year, when the city of Milwaukee having issued its bonds to the amount of $300,000, in aid of the work, and the people along the line having subscribed $362,000—half in cash and half in farm mortgages—it was determined to put the division from Janesville to Monroe, a distance of 35 miles, under contract. This was done on the 12th of December last; the Contractor, Mr. C. D. Cooke, doing all the work and furnishing all the materials, except rails, spikes and chairs, for $10,324 per mile. The progress of the road beyond Monroe will keep pace with the means furnished by those most directly interested in its extension to the Mississippi; and as the cities of Galena and Dubuque and the inhabitants of the rich agricultural and mineral region, between Monroe and those cities, have manifested a lively interest in the project, and every disposition to lend it material aid, the Southern Wisconsin Rail Road will not halt long in its Westward March. That it will be a profitable road cannot be doubted. It traverses the richest Lead region in the world, a region, too, remarkable for its agricultural wealth; runs at an average distance of nearly 60 miles from the main line to Prairie du Chien, and debouches on the Mississippi immediately opposite the commercial metropolis of Iowa.

A few considerations follow, to show how much the business of the M. & M. Rail Road must be increased, by its completion to the Mississippi, by the extension of the Rail Road system of our State; and by its approaching connection with the Great Western and New York Central Railways, by means of the Detroit and Milwaukee R. R., which is to terminate at Grand Haven, on the Eastern Shore of Lake Michigan, directly opposite Milwaukee. By this route, Milwaukee is distant from Buffalo but 517 miles, while by way of Chicago the distance is 616 miles, so that this will be, by one hundred miles, the shortest and most direct route to the East, for Wisconsin, Northern Iowa and Minesota. Some facts are also presented, in this connection, to show that the business of Wisconsin, which belongs to her Lake ports, will be *kept* by them in spite of all efforts, by the construction of rival roads, to draw off that busines to Chicago. Thus, it is shown that our ports are nearer to the Eastern markets, and the well-known fact is added that Wisconsin wheat always commands a higher price than that raised in Illinois. So, too, the return freight from the East, destined for Western Wisconsin, Northern Iowa and Minesota, will seek this route, in preference to the Galena and Chicago R. R., because it is 109 miles shorter, and quicker and cheaper in that proportion.

Much stress is justly laid upon the fact that heretofore the business of the Milwaukee and Mississippi R. R. has been entirely *local*. Until last June, when the completion of the Lake Shore R. R. put it in communication with Chicago, the road had no *through* connections. But with another year, it will connect at Chicago with the Eastern, Southern and Southwestern roads, radiating from that point; at Milwaukee, with the Detroit and Milwaukee, the Great Western, and the New York Central Railways, and at Prairie du Chien, its western terminus, with the swelling tide of business and travel, which ebbs and flows along the Upper Mississippi, and with those fair and fertile regions beyond that noble stream, where the fabulous wonders of Aladdin's lamp are almost realized in the magic celerity with which the wilderness is subdued, the waste reclaimed, and the land dotted with smiling hamlets, busy towns and thriving and populous cities. None who have not yet seen the Upper Mississippi can fully appreciate the facts and arguments as put forth in this portion of the Report; while those who have visited that region, especially within the past year, will pronounce the Report cautious in its statements, and moderate in its anticipations.

Another and to many, no doubt, a somewhat novel point is urged with great force, in the Report, to illustrate the value of the M. & M. R. R., as a permanent investment. This is, *that the best paying Railroads are those which do the largest proportion of Freighting Business.* In the early history of Railroads, in this country, as well as in England, a very different idea prevailed.—Then, passenger traffic was the great desideratum, and the less freight Railroads had to carry, the better were their managers pleased. Experience has proved, however, the value and importance of a large and regular freight traffic to Railroads, and the report quotes at some length, from a standard English book, to show that in England, at the present time, "the railway lines "which have the greatest *pro rata* of goods "traffic are the greatest favorites with the public." In this connection, the rapid and steady increase of the Freight traffic on the M. & M. R. R., is dwelt upon with much satisfaction. No less than 70 per cent. of the entire earnings of the road, during the past year, were derived from the Freight traffic, there being an increase of 65 per cent. on this branch of business over that of the previous year. The following tables, enumerating the articles and amount transported over the road, east and west, during the past year, will serve to show how this large traffic is made up:

It will be seen that the movement in each direction is very nearly equal, and it is a most encouraging indication for the future that the *out-freights* have increased in even a larger ratio than the *in-freights.* In the single item of Lumber, the increase has been 50 per cent, and within another year, it is believed that the road will be able to supply the country bordering the Wisconsin and the Mississippi rivers with this important article, the lower price of lumber at Milwaukee enabling the dealer to transport it over the road to Prairie du Chien and other points, and sell it there at a fair profit, while the immense rafts which annually descend these river, find their best markets some hundreds of miles below the western terminus of the M. & M. Railroad.

Having thus elaborately discussed the business, policy and prospects of the road, the report closes with a marked and merited tribute to the zeal, fidelity and skill of the Superintendent, Edward R. Brodhead. We so entirely and heartily concur in what is said of him and of the value of his services to the Company and to the public, that we copy the paragraph in full: "The large "experience, the professional skill and entire devotion to the interests of the Company, on the "part of the Superintendent, have rendered our "duties comparatively light and easy, and to him "we owe our freedom from accidents of any "serious character, the success which has attended the operations of the road, and the "marked economy in all branches of the Company's service, and the faithful attention to their "duties by all persons subordinate to his authority."

Appended to the Report, are:

I. A table of distances, showing how much nearer Prairie du Chien, Dubuque, Madison, Janesville, Whitewater, &c., are to Milwaukee and the East, by the M. & M. R. R. and its connections, than to Chicago and the East, by the various routes leading from the latter city.

II. The population of Wisconsin for a series of years, as thus:

Year.	Pop. of Wis.
1830	3,245
1836	11,686
1840	30,945
1845	149,000
1850	305,391
1855	552,109

III. The population of Counties intersected by the M. & M. R. R. This was, in 1850, 154,396, and in 1855, 254,776.

IV. The tonnage of Milwaukee—on the 1st of January, 1854, 22 vessels of 6942 tons; and on the 1st of January, 1856, 65 vessels of 11,868 tons.

V. The Report of the Engineer and Superintendant—brief and business-like. This shows, among other things, that 146,185 passengers have been transported over the road during the year, without the slightest injury *to any one*, except in a single instance where a passenger car was thrown off the track by the breaking of an axle, and the shoulder of one passenger injured—that remarkable success has attended the operations of the year—that the efforts of some fiends to injure the property of the Company, by placing obstructions on the track, at the risk of destroying innocent lives, have been successfully defeated, and the perpetrators detected and brought to justice—that a Telegraph line has been established along the line and offices opened at nearly all the stations—and that the work on the Western Division of the road, from Madison to the Mississippi, is so well advanced that no doubt is entertained of its completion by the 1st of November next.

The equipment of the road consists of 25 Locomotives, 11 Passenger, 4 Baggage, 287 Freight, 40 Gravel and 16 Hand Cars, and the Company has contracted for 13 additional Locomotives and 200 Box Cars, which will suffice for this year.

VI. Tables showing the Freight traffic of the road for the past year (published above) and also the earnings and operating expenses for each month.

VII. The Reports of the Secretary and Treasurer. From the former we learn that the whole number of shares subscribed and taken, in the M. & M. R. R. stock, is 26,498, of which the City of Milwaukee holds 2373 full paid shares, individuals 21,288 shares, and the Company, 2828 shares, being stock relinquished and forfeited. The whole amount paid in on these shares is $1,820,486; but dividends are payable on $955,838 only of this sum; the remainder being Farm mortgages, and the stock held by the city, on which dividends are relinquished in consideration of the Company paying the interest on the city bonds.

We have thus presented to our readers a full summary of the Seventh Annual Report of the Directors of the Milwaukee and Mississippi Rail Road Company, and while congratulating those of them who, as stockholders, take a more immediate interest in the matter, upon the satisfactory character of the document, and those of them who are citizens of Milwaukee, or of Wisconsin, upon the creditable progress and complete success of this important enterprize, we cannot better close our article than by adding the following remarks upon the financial character of the road itself and the rising fortunes and brightening future of our own fair city and our glorious State, from a recent number of the New York *Herald:*

Milwaukee is destined to be the great outlet for the thriving State of Wisconsin. The Milwaukee and Mississippi Railroad, when completed to Prairie du Chien, on the Mississippi River will command the travel and traffic of Northern and Western Wisconsin, Minnesota, and a portion of Iowa. These immense regions must, before the lapse of many years, be enormously productive. They will ultimately be the great grain-growing section of the Union, and their products will seek, by the nearest routes, the waters of Lake Michigan, for shipment to the East for manufacture, previous to consumption in the great Atlantic cities.

Milwaukee has had comparatively very little railroad connection with the interior, and her exports have therefore been comparatively limited; but she is now extending her iron across into the rich grain-growing sections of the greatest States of the North-west, and must henceforth rank high as an exporting point on Lake Michigan. It is naturally one of the finest locations for a large city north of Chicago. Situated on high land, at all times perfectly healthy, with a fine climate, and many other local advantages, Milwaukee possesses many attractions, and must ultimately become a city of much importance. Its railroad system is yet in its infancy, but must be developed with rapid strides. Wisconsin is, by all odds, the finest of our Northwestern States. It is free from all those drawbacks, such as fever and ague, &c., which have retarded the growth of other Western States and Territories, and the progress, as railroads penetrate its fertile valleys, must be far in advance of anything heretofore realized. The route of the Milwaukee and Mississippi Railroad is directly across the State, from east to west, from Lake Michigan to the Mississippi river, running along the base of a range of mountains. The geographical location of this road is not surpassed by any in the West. Its present business is drawn from a sparsely populated country, and yet it earned in 1855 twenty-five per cent on its capital stock. As soon as that portion of the State now intersected by this road becomes more densely populated and more extensively cultivated—as soon as the agricultural resources of the State are more widely developed—the Milwaukee and Mississippi Railroad *must be the largest dividend paying work in the country.* There is one important fact relative to railroads located in the new Western States, which is not sufficiently appreciated by capitalists and men of moderate means. We refer to their easy construction and ultimate cost. They are constructed at comparatively small expense, and their productiveness always keeps far in advance of their increase of capital. The country around them upon which they depend for business, grows so much faster than they do, that their earnings must always be very large on investments. Where they pay but the fraction of the soil along the line cultivated, and the settlers few and far between; with prairies around them reaching as far as vision extends, without the first habitation, what must be their revenues and their productiveness when that fertile soil is covered with an industrious population and its products have increased ten thousand fold? We leave this to the consideration of those who have investments in the old, expensive railroads of the Eastern States.

The Fox Lake Homicide.

We insert the following by request of a correspondent at Beaver Dam, although it so nearly accords with the account which we published of the affair, as to seem a useless repetition:

THE FOX LAKE TRAGEDY.

An Article appeared, some days since, in the Milwaukee *American*, characterizing an affray which occured at Fox Lake on the 23d inst., and resulted in the subsequent death of Patrick Conley, as another foul murder. It is to correct a wrong impression which that article is calculated to make upon the public mind, that I am requested and induced to make a statement of the facts of the case, as they appear from the evidence given before the Inquest. The facts are as follows:

Mr. Conley (the deceased) was in Porter's ball alley. Mr. Phelps came in, passed the time of day, and passed right on to the lower end of the alley, and commenced setting up the pins—Mr Conley picked up a ball and said to Mr. Porter, "let's knock down the pins when he gets them set up"—and Porter said "roll away." He rolled and knocked down some of the pins. Phelps then lay some pins diagonally across the alley, two or three feet in front of the pins he had set up, to prevent them from being knocked down. The second or third time that Conley rolled, he slipped down upon the alley, and while he was lying there, Phelps caught up a ball and gave it a toss upon the alley, and it rolled against Conley.

Up to this time all was fun and laughter. But as soon as the ball touched Conley, he jumped up in a great rage—picked up the ball and started towards Phelps; at the same time drawing back his arm as if to throw. Mr. Porter cried out "for God's sake, don't throw that ball. He threw, and whether from ill-range, or the slipping of the ball from his hand, it did not appear, but the ball struck the wall over head about half way down the alley in a direction towards Mr. Phelps. It was a heavy lignumvitæ ball, and had it hit Phelps upon the head would have produced instant death. Mr. Conley continued his rush upon Mr. Phelps, and as he came down one alley Mr. Phelps tried to make his escape upon the other, but was caught by Conley just as he was making the turn to come upon the alley, and struck by him. Phelps warded off the blow with his arm, and sprang to release himself from Conley's grasp, and failing in this, turned partly around and hit Conley with a pin which he held in his hand. This blow happening to hit Conley upon the head caused his death in about two days after.

Mr. Conley was frantic with rage, and Mr. Phelps with fear. As soon as Phelps ascertained that Conley was injured, he returned to him, took his head upon his knee, bathed his face and head in liquor, and subsequently went to Beaver Dam for a doctor.

That this was an unfortunate occurrence all will admit. None regret it more seriously than Mr. Phelps. We think however, that it is entitled to a very different name from that given to it by the correspondent of the *American*. As soon as Phelps was arrested he voluntarily tendered bail for his appearance at court.

X

Milwaukee and Watertown Rail Road.—The ordinance of our Common Council, for the issue of $95,000 in City Bonds to the Milwaukee & Watertown R. R. Company, in aid of the extention of their road to Columbus, is fettered by conditions that have forced the Company to reject the proffered "help." The Directors, finding compliance with these conditions entirely out of the question, have declined the City's *gift*. The *Wisconsin*, of last evening, alluding to the matter, says:

The Council ordinance literally compels the stoppage at Columbus, of the Watertown road, in all future time. Such a restriction would be a positive injury to Milwaukee, for the more railways we have, the better for the city.

The whole question will now go over to the charter election in March, when the voters will determine whether they are in favor of stopping the Watertown road at Columbus. This road should ultimately be extended to St. Paul, and we do not believe that the people of our city will approve of any policy which will retard the building of the road to St. Paul, the capital of Minnesota, and which would be of immense advantage to our city. The issue is soon to be presented, and our electors should be prepared to meet it.

Important Hotel Case.—In the Court of Common Pleas, in the case of Forbes vs. Howard, proprietor of the Howard Hotel, where the former, a traveller, had his room broken open and was robbed of his trunk and $450 in gold, and where the latter refused compensation on the ground that it was notified by placards in the hotel that all boarders having valuable packages, or large amounts of money in their possession, must deposit them in the safe for safe keeping, or stand their own risk of losing their property, the judge decided that this notification did not alter the case, that whatever be the nature of the inn, or of the accommodations offered, if the innkeeper receives a guest and his goods, he charges himself with their safe keeping. The moment the goods are in, *infra hospitium*, the liability of the innkeeper attaches, and that liability extends to all kinds of property. A judgment was brought against the hotel keeper for $582.

Racine & Miss. R. R.—By the advertisement of this Company, it will be seen that, having opened its line to Delavan, Walworth Co., it is now prepared to do its regular passenger and freight business. The trains commence running on Monday, February 4th, between Racine and Delavan, stopping at Mt. Pleasant, Windsor, Union Grove, Dover, Burlington, Lyons, Springfield, Geneva, and Elkhorn stations. Persons who wish to visit places along the line of the road, can leave here by the Lake Shore R. R. and get to Delavan and back in a day and a half, giving time for the transaction of business.

The Company, and the thriving city of Racine have reason to congratulate themselves on the success of their enterprise.

The Largest Steamship in the World.—The new iron steamship Persia, of the Cunard line, arrived at Liverpool on the 16th from the Clyde, under the command of Capt. Judkins, of the Arabia. The Persia's speed from Greenock to Liverpool averaged 16 knots an hour.

The Persia exceeds by 1,200 tons the internal capacity of the largest of the present Cunarders, but, we believe, will be excelled in size by the Adriatic, of the Collins line, which commences her trips in the spring.

Southern Commercial Convention.—The Southern Commercial Convention is to meet at Richmond, Va., on the 30th inst., the object being "to establish the commercial independence and prosperity" of the South. Gov. Wise has appointed fifty-two delegates from different parts of the State—among them ex-President Tyler and ex-Senator William C. Rives.

The Collingwood Line.—The Buffalo *Commercial* says that this line will commence business with greatly increased facilities. It understands that the receipts of last year fell rather short of the expenses, though far in advance of the expectations of the managers of the route; and they are confident of realizing a handsome dividend for the current year.

Brilliant Reception.—Gen. Todtleben, who fortified Sebastopol, is now engaged in military works about St. Petersburgh. He has had a very brilliant reception at Court, and many banquets have already been given in his honor; but the most brilliant was that got up by the corps of military engineers. All the pupils of the engineer school of Nicholas, a great number of them old comrades of his class and his former master's, took a part of it.

The Express Robbery.—The Buffalo *Commercial* says that the Company has succeeded in recovering about $30,000 of the stolen funds, by attaching a tavern stand and livery establishment in the town of Lawrence, Mass., and between $7,000 and $8,000 in money, deposited in the bank at Haverhill, Mass.

Editorial Withdrawal.—We regret to learn, from the Madison *Journal* of yesterday, that George Gary, who has been for some time past connected with that paper, has been compelled, by continued ill-health, to relinquish the post.

☞ The Buffalo *Commercial* says that veteran favorite of the public, the steamer *Empire State*, has ceased to exist. The engine is to be placed in a new steamer now building to run in the Michigan Southern Railroad line between Buffalo and Toledo. The hull will doubtless be fashioned for a propeller.

The *Empire State* was always a favorite with the public, but her place will be filled by a model craft, which is, we believe, to be called the Metropolis. The dimensions of the Metropolis will be—length 330 feet; beam 40 feet; depth of hold, 14 feet; which will make her about 1,900 tons burthen. She is to cost about $200,000, exclusive of the engine. She is to be fitted up with all the improvements and elegancies that adorn modern first class boats.

☞ A Virginia postmaster has been inquiring of the Department the meaning of the little "pictures stuck on the letters;" and another official in Iowa, desired the Department to sustain him in a decision he had recently made against a "fellow" who insisted that "them pictures of Washington, on the letters, *paid the postage*."

Special Correspondence of the Sentinel.

Madison, Thursday Ev. Jan. 31.

In my last I mentioned that Hon. H. S. Baird was delivering the anniversary discourse before the State Historical Society. I heard the beginning and the end, and am sorry to say that it would have been better for the gentleman's reputation if it had not been delivered. While there were some good hits, as a whole it was prosy, and fell upon the ears of the audience without any other desire than for the end.

This afternoon we have had an exhibition of the Deaf Mutes from our State institution. It was intensely interesting, and the only regret felt and expressed was that there was no time to continue it. It commenced without any address from the Principal of the institution, farther than a very few remarks occupying but a minute or two, when he commenced by showing how a pupil, who had no idea of language, was first taught the use of words, and the gradual process by which he is lead along to the use of adjectives, verbs and their modes and tenses, to the difficulty of language. He mentioned one fact illustrative of the difficulty of teaching them language which was new. He stated that it took *seven years* for a pupil to learn to read a common book. He spoke of the necessity of their being brought to the institution young, and brought forward a young lady and a young man of 22 years of age, who he stated might stay in the institution 50 years, and never learn to connect language. They could only learn "words, words."

Several of the pupils were brought forward on the stage and in the language of signs represented a Blacksmith, an old woman spinning, the barber, doctor, extracting a tooth, &c., &c. The pupils have evidently made good proficiency and the instructors seem to be whole souled men, deeply and earnestly engaged in their work.—The institution needs the fostering care of the State, and I will no doubt receive it.

In the Senate to-day, a resolution was introduced by Senator Barber to adjourn on the 25th of February, but I think it cannot pass. The main business of the session is not yet reached, and there is no prospect that an apportionment bill can be framed that will pass without many a struggle. In the house the Lawyer's fee bill and the division of Marquette county were the principal subjects. The former was indefatiguably postponed and the latter is in *statu quo.*

To night Dr. Mitchell, of Janesville, President of the State Medical Society, is delivering the annual address. A goodly number of the Medicos are in attendance and no doubt delighted at the dressing all manner of quackery from Hahneman and homeopathy to Thompsonianism and Hydropathy, are receiving from their worthy President. *Non nostrum tantas componere lites.* For all the Doctor can say we outsiders do dearly love to be humbugged, and, luckily for us, there are plenty who are ready to "fool us to the top of our bent."

The Deaf and Dumb are exhibiting again to-night at the Baptist church to delighted spectators, (I can't say audience.)

No political news. We await the ides of February. SIGMA.

Correspondence of the Sentinel.

The Late Lieut. Gunnison, U. S. A.

Fairfield, Iowa, Jan. 27, 1856.

Messrs. Editors:—Knowing that the lamented Gunnison, who was my friend, formerly resided in your City, and left a wife there, I deem it a duty to say that Mr. J. W. Githens, of Keokuk, in this State, has lately returned from the Great Salt Lake Valley, and has in his possession the Epaulets worn by that Officer, as well as the particulars of the massacre, from the Indians themselves. Mr. G. would feel great pleasure in forwarding the Epaulets, and the facts in regard to his death to his widow. If Mrs. G. is not in your City, will you publish this, so that it may meet her eye. In 1850 I was Agent for those Indians, and know the Chiefs. Mr. Githens statement may be relied on. A Lieut. under Col. Steptoe has the ring Gunnison wore when killed.

Respectfully, Your Ob't,
H. R. DAY.

A Good Move.—We notice by the proceedings of the Legislature of this State that Mr. Warner of Oswego, proposes to invest women with new rights. He has brought forward a bill to allow married women whose husbands are drunkards, and who refuse and neglect to provide for their children, to transact business in her own name and dispose of her children's earnings as she may deem best for her own support and their education; that she shall also have the power to execute indentures of apprenticeship for them, and that it shall be necessary to the validity of such indentures to have her name and consent.—*Buffalo Express.*

Such a law has been on our statutes in Wisconsin for one or two years, though it is not generally known.

Capital Punishment.—A correspondent of the Madison *Journal* complains of the *Sentinel* for publishing an extract from the Kenosha *Tribune and Telegraph*, in favor of capital punishment, which, it appears, did not express the views of the editor of that paper. The writer says:

"Let me say then, the article quoted, although published in the *Tribune and Telegraph*, was from a correspondent, and in nowise involved the opinion of the paper; and as it had an initial at the bottom of it, indicating a source foreign to the paper, I cannot comprehend the candor of the *Sentinel* in publishing it as it does."

We have only to say, in reply, that we did not observe the "initial" at the bottom of the article, and assuredly supposed that it *did* speak the views of the *Tribune and Telegraph.*

Lt. Grover Discharged.—The Court Martial held at Praire du Chien in the case of Lt. Grover for killing Wm. H. Ford, a deserter from that post, has resulted in his discharge, the Court finding that he had only done his duty.

"D'ye think," quoth Ned, "that *bolts* will please
The Northern Hindoo masses?"
"I think," quoth Jim, "a *horse disease*

Good News for Beaver Dam.

The Rock River Valley Union Railroad, we understand, has decided to make their connection with the La Crosse and Milwaukee Railroad, not being able to make a satisfactory arrangement with the Horicon and Berlin company. They will switch to the east and west on making their connection with the La Crosse Road, and they will run their freight and passengers over the La Crosse Road into Beaver Dam, or Milwaukee.

Over six million feet of lumber has already been contracted for in Oshkosh and Fond du Lac to be delivered by Railroad in Beaver Dam.—*Beaver Dam Rep.*

Marriage of a Deceased Wife's Sister.—In the course of an argument by counsel, in the case before the Court of Session last week, respecting the legality of a marriage with a deceased wife's sister, one of the counsel said it was a doubtful point whether such marriage was prohibited in the Levitical law; on which Lord Ardmillan remarked, that he was surprised none of the counsel had referred to Jacob marrying two sisters, and to the fact that our Saviour was descended from one of them.—*Glasgow (Scotland) Mail.*

Unpaid Servants of the House.—The Secretary of the Treasury has decided that Mr. Forney is Clerk only for limited purposes. He has refused to recognize his requisition for funds to pay the officers of the House, other than the clerks employed immediately under himself. The Sergeant-at-Arms, Door-Keeper, and Post-master, employing in their various offices, nearly one hundred and fifty persons, have received no pay since the beginning of the session, and will receive none until the House shall organize.

☞ During the year 1855, 553,045 barrels of flour were transported from Albany and Troy over the Western Railroad, of which 340,108 were landed at Boston, and 212,937 at way stations. In the year 1854, 421,834 barrels were transported, of which 252,982 barrels went to Boston.

Savage Punning.—A western paper having stated that Judge Douglas was a man of "loose habits," Prentice replies that on the contrary he is often very "tight." Another remarks that he has gone to Cleveland to try "the water cure," and to this added that drinking water *only* will remove his malady.

WHY FEMALES SUFFER IN HEALTH.
THE MARRIED WOMAN'S
PRIVATE MEDICAL COMPANION
BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.
One Hundredth Edition (500,000) 18mo., pp. 250.

A standard work of established reputation, found classed in the catalogues of the great Trade Sales of New York, Philadelphia, and other cities, and sold by the principal Booksellers in the United States.

Every woman can here discover, by comparing her own symptoms with those described, the nature, character and cause of her complaint, and be spared much anxiety and suffering, as well as the unpleasantness of making known to, or making inquiry of, a physician in respect to the numberless ailments to which she is subject. The wife about becoming a mother has often need of instruction and advice in respect to her situation, which she will here find. This book tells her what is the matter, and tells her what to do for it, in simple but chaste words, and such as she can understand.

Those suffering from obstructions or irregularities peculiar to the female system, or from *prolapsus uteri* (falling of the womb), or from *fluor albus*, will each find in its pages the means of prevention, amelioration, and relief.

Much distress of mind, as well as thousands pecuniarily, might be saved to every husband, if the simplest laws appertaining to the marriage state were better understood That they are not better understood is traceable to that natural and almost commendable sensitiveness that will rather suffer than consult or converse with even a medical man in respect to complaints peculiar to the female only.

In a copy of "*The Married Woman's Private Medical Companion*," every female has a physician that knows and describes her every symptom, feeling and ailment, and which she can consult at all times without violence to her sensitiveness.

[Extract of a letter from a gentleman in Dayton, Ohio.
Dayton, May 1, 1847.

Dr. A. M. Mauriceau—*My Dear Sir*—My wife has been perceptibly sinking for some three years or more, in consequence of great anguish and suffering some months before and during confinement; every successive one more and more debilitated and prostrated her, putting her life in imminent danger, and which was on the last occasion despaired of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and perusal I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Desomeaux provided a remedy. It opened a prospect to me which I little conceived was possible. But for this, ere another year would have passed over my head, in all human probability my wife would have been in her grave and my children left motherless.

☞ Upon receipt of One Dollar, "The Married Woman's Private Medical Companion" is sent (*mailed free*) to any part of the United States, the Canadas, and British Provinces. All letters must be post paid, and addressed to Dr. A. M. Mauriceau, box 1224, New York City. Publishing Office, No. 129 Liberty Street, New York.

Book Notices.

Our Cousin Veronica; or scenes and Adventures over the Blue Ridge. By Miss Mary E. Wormley. New York—Bunce & Brother, Publishers, 126 Nassau street.

The enterprising and well known firm of Bunce Brother have issued in handsome 12mo style a work thus entitled, from the graceful pen of Miss Wormley, the authoress of "Amabel."

From the fact that the last mentioned work was rapturously welcomed by the reading public, we may reasonably anticipate a like reception for "Our Cousin Veronica," who hails as indicated from the title, from the Old Dominion. feb1b290d&w1t

Photographs.—The picture-making art is carried to great perfection now-a-days, and the country produces few better artists than are to be found in our city. To say nothing of Daguerreotypes and Ambrotypes, we notice at the doors and in the rooms of our artists numerous specimens of beautiful Photographs. At Brown's, the other day, we noticed a dozen or two superb portraits, in the latter style, of ladies and gentlemen of our city.—Three portraits of as many old settlers,—Henry Williams, Dr. Weeks, and Alanson Sweet, are remarkable for their correctness and clearness. We understand that Mr Brown thinks of procuring a large number of likenesses of notable persons of Milwaukee for his gallery.

Hose Company Ball.—The Balls given by Supply Hose Company, of this city, have always been among the most elegant and successful public festivals of the season, but their last, on *Thursday evening*, at Young's Hall, outshone all its predecessors. The Hall was neatly carpeted and tastefully draped and decorated; the windows were curtained and a glow of light lent brilliancy to the scene. The music was most inspiriting; the supper, by Belden, sumptuous and abundant; the ladies looked their best, and the gallant Members of the Hose Company were indefatigable in their efforts to make all their guests happy. It was certainly the handsomest public ball ever given in our city.

The New Government Buildings.—Mr. Jones, of Rochester, N. Y., who has the contract for building the U. S. Custom House, Post Office, &c., on the corner of Milwaukee and Wisconsin streets, arrived in our city Thursday evening, and is already busy making his arrangements to commence work with the opening of the season. We learn that he is an experienced, skillful and energetic builder, and hope that he will make his mark (as well as some money) in the construction of the Government edifice.

The Cold Term.—Ever since the 23d day of December, a period now of forty days, we have had steady cold weather. During all that time, the mercury has not, within our recollection, risen above the freezing point, save possibly for a half hour or so, at midday; while for days and nights in succession, the mercury was *below* zero. Most of this time we had snow enough to make fair sleighing, and now it is of good depth. Everywhere the ice is of unusual thickness.

Horses Probably Stolen.—Four horses were brought to the Baltic House on Thursday, by three men, who stated that they were going to stay several days, and who made a bargain for their keeping. The men, after having partaken of dinner only, left with the horses. The Chief of the Police at the station on Wisconsin street will give any person applying to him information concerning the horses, &c.

Challenge Safes.—See the advertisement of Messrs. Hornbach & Wagner, late from Cincinnati, who have commenced the manufacture of fire-proof Safes in our city. They will have one ready for trial in public before long, and are confident that it will stand every test.—Schumacher, the ingenious locksmith, is interested in the sale of these Safes.

The Gas.—The Gas, which gave out entirely in our office, shortly after midnight Thursday, threatened to do the same thing, all over the city, last evening. For two or three hours, there was "darkness visible" everywhere; owing to some trouble at the Works. Before 9 o'clock, however, the difficulty was remedied, and there was light again.

Sabbath Evening Lectures.—The second lecture on the Evidences of Christianity will be delivered in the First Presbyterian Church, to-morrow (Sabbath) evening, by the Pastor, Rev. S. G. Spees.

Subject—The Necessity of a Revelation.

Two Year old Colt Found.—Mr. D. S. Pollitt, of the Baltic House, advertises in this morning's Sentinel a fine 2 year old colt left at his stable, and that the owner can have it on paying charges and proving property.

Correction.—W. Laidlaw requests us to correct a mistake made in his advertisement, by stating that the price of the brick house alluded to by him, as sold last year to E. C. K. Garvey, was $74,000, and not as erroneously printed, $7400.

Horicon Rail Road.—This road commences to run trains regularly to Hanf, a village ten miles distant from Horicon, on Monday next. Stages will connect at that point for Waupun, Fond du Lac, Berlin, &c.

A Brilliant Picture of Virginia Society.

JUST PUBLISHED,

OUR COUSIN VERONICA;

OR,

SCENES AND ADVENTURES OVER THE BLUE RIDGE.

By Mary Elizabeth Wormsley, Author of "Amabel, a Family History."

"THERE is a charm about this work which we can scarcely define, but which makes it one of the most delightful books we ever read. The incidents have the effect of reality, rather than of fiction. Its descriptions of Virginia life are remarkably graphic, vivid and faithful. Some of the scenes are splendid pictures. There is one in the earlier portion of the work, in which the heroine overhears the man she loves confess his passion for another, which is admirably done, and very effective; and there is another describing his escape from a party of desperadoes in Virginia, which is as artistic in its management as anything in Cooper. The work altogether is superior as a literary production, highly entertaining as a novel, and admirable as a work of art."

From Harper's Magazine for February.

"The story of 'Amabel,' by the author of this volume, secured to her an enviable position among the female novelists of this country. The present work will in no respect diminish her reputation. As a whole, we regard it as possessing superior merit, showing a large and refined culture, a justness of thought, and a home-bred naturalness of feeling, which are not always discovered in the novels of the day."

From the Boston Atlas.

"Its great merits are its fidelity to the realities of the life it depicts, the beauty of its descriptions, the nice exactness in which it delineates the softer shades of character, and its simple, easy elegance of style."

One Vol. 12mo. Price $1,25. Mailed free of postage.

CONTRAST the tints brought out in the hair by Christadoro's matchless revitalizing Hair Dye, and those produced by application of the burning fluids ordinarily sold as Hair Dyes, you see at once that the color is natural in one case, unnatural in the other, and the simple reason is that Christadoro's is the only preparation *which by its exact chemical combination* operates on natural and immutable principles. CITY LAND OFFICE,

Corner of East Water and Wisconsin Streets.

IN a few days we will have Spring, and there will be a general rush for Real Estate, both in the city and country. There are already several applications for residences and lots, but owing to the intense cold weather, and being compelled to help in the house myself, I have not been able to show property to those who have made application. In a few days we will have the spring sun, and I will be able to attend to my Land business with that attention it requires. All who want to make any purchases will find me, as soon as the thermometer gets above zero, at my place of business at 8½ o'clock A. M., to 5 o'cl'k P. M., and I will have my horses and carriage in readiness to show property in any part of the city that may be for sale.

I have several dwelling lots for sale, and I would call attention of all who wish to secure themselves a house, to be in time, for I had the information that as soon as the Spring fairly opens, there will be from four to five hundred more families from the East and South, intending to make Milwaukee their home. CALEB WALL,

CITY LAND OFFICE.

I AM now preparing my room, corner of East Water and Wisconsin Streets, and arranging my maps for the Real Estate Trade, which will commence in a week or two. I have the list of some property left with me last fall.

I would say to my friends that they will please call and fix prices and terms so that I can be prepared for operations in time.

I will give a report of sales of Real Estate once a week as soon as business gets fairly under way. I have made some large sales within the last two months, which have been reported, I see, through the Recorder's office.

LIABILITIES.

Unsettled claims for Losses and not due $176,082 47

The Ætna Insurance Company presents its patrons the very satisfactory condition, of a large increase in Cash Assets, for the further security of their policies—all our investments being placed at the minimum market value, at the present time of some depression in the standard of same. They are either prime dividend paying stocks, or good, valuable and clean investments, yielding moderate interest and income. The standard basis on which the Assets have been valued, being *Gold at interest*. Besides this solidity, the Company calls attention to the strength and security it derives from its combined system of Agencies, through its agents having the means of presenting a united phalanx of *experienced Underwriters*, which has worked, for thirty-seven years, the happiest results to stockholders, and claimants for losses—and enables it to enter the year 1856, with greater prestige for future usefulness, than has yet been reached by a really *National* Insurance Corporation.

All business attended to with despatch and fidelity.

SIX O'CLOCK REPORT.

ARRIVAL OF THE ARABIA!

RUSSIA ACCEPTS THE PEACE PROPOSALS!

Consols Higher, Breadstuffs Down.

Nothing Doing in the Crimea.

NEW YORK, Jan. 31.

The *Arabia* has arrived. She left Liverpool about 9 o'clock in the morning, Saturday, Jan. 19th, with 107 passengers, and arrived at Halifax on Thursday, 31st, at 9.30 P. M.

The *Asia* arrived at Liverpool early on Sunday, A. M. the 13th inst., but lay off several hours for want of water. She reached her berth at noon.

The *Baltic* arrived at Liverpool at 11 o'clock A. M., on Thursday, Jan 17. Four hours after leaving New York a terrific gale sprung up from the N. E. which lasted all day and night. She experienced easterly weather during the entire passage.

The *Union* did not touch at Southampton on her way to New York.

The grand news of the week is that Russia agrees to the negotiation terms proposed by the Allies. The final announcement was made at Vienna, and telegraphed to the London *Times* in these words—Russia accepts allied propositions unconditionally. This is authentic, and has caused an immense sensation. *Funds* rose 3 per cent., Cotton 1 farthing, and panic reigned in other markets.

The next day Government published a dispatch from Minister Seymour at Vienna as follows: Russia agrees to accept the Allies proposition as a basis of negotiations. This qualified announcement curbed the excitement and alarmists begin to fear that Russia merely seeks to gain time by deceptive negotiations. Pending the above announcement, Vienna papers represented the state of affairs as most serious and alarming, and that all persons of Austrian Embassy had received orders to quit St. Petersburg and Russian Embassy to leave Vienna. The actual circumstances were that the Count Esterhazy handed to count Nesselrode at St. Petersburgh the Austrian Alliance note of Dec. 2d.

He said he was not authorized to enter into discussion, but if the note was not accepted unconditionally before the 8th of Jan., he and all the Austrian Embassy must leave St. Petersburg. To prevent this Nesselrode communicated with Vienna direct, and on Jan. 11th Prince Gortschakoff had a talk with Count Buol; in which Gortschakoff produced a memorandum expressing an inclination on the part of Russia to negotiate, but proposed certain alterations in the programme. Count Buol formally received the document next day (Friday,) 2d.

But inasmuch as it did not contain an acceptance pure and simple of the proposition, Austria could make no reply, without concession from France and England. The Ambassadors of these powers accordingly sent to Paris and London, and received for reply, that the Western Powers had no motive to give up a decision, which had been already carefully considered, farther, that if by Jan. 18th, Russia did not accept the ultimatum, Esterhazy and the Austrian legation would leave St. Petersburgh, and Austria would immediately seek to obtain the armed co-operation of the Germanic Diet against Russia. During the week that elapsed between Russia's first and second reply, intense apprehensions existed in Vienna, although without sufficient cause, for the Austrian cabinet had taken precaution to notify Western Powers that notwithstanding rupture of diplomatic relations, Austria would not be in position to commence hostilities this year. On the 16th, apprehensions were set at rest by a report that Russia agreed to negotiate on terms proposed.

Very little other news.

Nothing important from the Crimea.

Numerous ambuscades of Cossacks are distributed around the Allied camp, but vigilance prevents many stragglers being captured.

Several additional explosions were made in the Sebastopol docks, now almost destroyed.

France and England each reserved one gate as a trophy.

The Russian *Invalide* publishes a dispatch from Gortschakoff saying that a party of French bearing white cloaks, to prevent being seen in the snow, advanced by night and surprised Vaider, bayonetted one party and retreated when Russian reserves came up.

Gen. Canrobert's latest dispatch, dated Jan. 1st, reports merely the health of the army good. Baron Illbach left Berlin the 14th on his return to Paris. Sweeden continues warlike preparations. Copenhagen official journal denies the existence of any circular repudiating Sweedish alliance on the part of Denmark.

St. Petersburg dates say Marshal Paskwitch has bequeathed as his dying injunction to the Emperor to make peace. He would never have given this advice to Nicholas, whose battles he had fought, but to the young Emperor who had no hand in raising the war, he urged the policy of peace.

The French Council of War continues its sittings at Paris.

Two Commissioners have been appointed to prepare reports.

Admiral Lyons and Gen. Canrobert, members for army, Admiral Dundas and General Neil, navy.

There had been a discussion relating to withdrawal of Allied forces from the Crimea, retaining only Kunich, Eupatoria, Balaklava, and making a campaign up Rivers of the Southern provinces of Russia. Admirals opposed this plan, inasmuch as it would take 3 months to remove material for part of the campaign from the Crimea.

BALTIC.—Dantzic letters of the 14th say the American ship *Washington*, which was all summer at Copenhagen, had landed her cargo on the ice, and conveyed it in sleighs into Riga.

American ship *Telegraph* is expected at Calgal, and another (American) at Revel.

ASIA.—Constantinople intelligence reports Moroviloff advancing in Asia. His advanced posts are within three hours march of Erzeroum.

The campaign of the Turkish army in Ineristic is indefinitely abandoned in order to relieve Erzeroum.

Omar Pacha's troops have begun to arrive at Trebizond.

Egyptian contingent is already embarked for Trebizond.

Omar Pacha has tendered his resignation, but is refused, he is in disgrace at Constantinople. Not long since official Commissioner of widows and orphans, applied to attach Omar's property in Constantinople, for his children by first wife in compliment to Omar Pacha, attachment was not permitted but since the fall of Kars, Commissioner has taken the property.

The Turkish government has published an account of the fall of Kars, tending to throw the entire responsibility on Omar Pacha. He has sent Col. Simonds to defend him at Constantinople, but Simmonds finding himself supplanted has gone to England. Omar blames the Turkish ministry, and especially Riga Pasha, for withholding supplies.

There is some talk that Omar will be sent as Turkish Minister to England. Abdel Kader has arrived at Damascus to occupy the palace presented to him by the Sultan.

A Paris commercial letter says, the French whaler *Epsailon* was chased two days near the Kaulies Islands, Pacific, by a Russian corvette, but escaped in a snow storm.

GREAT BRITAIN.

Home politics quiet. Palmerston ministry is gaining adherents in Parliment. Hopes of peace throw all other news into shade.

The President's Message is of course variously commented upon, but general opinion favorable. It is considered moderate in tone, yet expressing America's views with dignity and decision.

No one now anticipates a rupture between the two countries.

The London *Gazette* publishes a treaty with Japan, opening to British commerce the ports of Nagarki and Kakodadi, the same as to the Americans.

Hon. Henry Giborn, Ex-Chancellor of the Exchequer, is dead.

Small arms from American factories were landed at Woolwich on the 15th, from Robbins & Lawrence.

Exhibitions of the strength and durability of Beatie's Metallic Life Boats were given at Liverpool and found satisfactory.

FRANCE.

There was a Grand Review at Paris on the 15th, of troops from the Crimea, when the Duke of Cambridge, in the name of Queen Victoria, presented British Crimean Medals to 14,000 French troops. The Moniteur publishes a report of Minister of Finance. Report congratulates condition of country, and says the only danger is liability to extravagance, but whose Emperor will postpone expenditures on all enterprises except those of urgency.

PORTUGAL.

Lisbon dates report heavy rains, and a freshet in Bouro had caused much damage.

The Cortes would meet on the 19th.

Exchange on London, 51¾.

SPAIN.

Maria Christiana is about to marry her second daughter to Prince Drago, a rich nobleman of Germany.

Several princes of the Germanic Confederation are about to assemble at Berlin, to discuss present political relations.

SWEDEN.

Export and import of iron, on payment of one rix dollar per skippend. Bar may be imported free of duty.

AUSTRIA.

Bell & Co report the market for American securities dull, and prices U. S. sixes bonds 104.

NINE O'CLOCK REPORT.

WAR BROKEN OUT IN KANSAS!

Two Men Killed!

NEW YORK, Feb. 1.

The *Tribune* this evening has the following letter from Lawrence, Kansas, dated Jan. 19th. The citizens of the city have been called out at midnight to rally at Easton in defence of the people there from violence of a mob from Missouri. The enemy made an attack on the ballot box. In its defence two Missourians were killed and two Free State men badly wounded.

Brown, of Leavenworth, and Menard, of Easton, are both in the hands of a mob, who threaten to hang them to-night. Messengers have been sent over the Territory to rally the Free State men, and runners may have been sent to Missouri to rally a large mob. The military companies of Lawrence will start for the post of danger soon. Generals Robinson, Lane and others are in council. Orders have been sent to the different companies to be in readiness to march to Easton in a few hours. Men on horseback have started for Leavenworth. The war threatens to become general. (Another version of the Kicapoo story.)

Congressional.

WASHINGTON, Feb. 1.

HOUSE.—Mr. Letcher offered a resolution that Messrs. Banks, Orr and Fuller be appointed to confer together, and report to-morrow morning; the name of some member on whom they or a majority of them agree, who should be Speaker, he said, various attempts had been made, proving it impossible to elect Speaker by direct vote; if his expedient to secure a result should succeed, it would carry joy throughout the country, and show the people that Heaven's first law, order reigns in Washington. Tabled by 26 majority.

Mr. Lindley offered a resolution declaring Mr. Porter, of Mo., Speaker. He said Mr. P. was un objectionable to all parties, being neither a K. N. or a democrat, nor the least tainted with Republicanism, but an old fashioned whig, which everybody *seems to admire, now that it is dead.* [Laughter.] Tabled by 76 majority.

Mr. Ball submitted a resolution declaring Mr. Banks Speaker. Negatived by 102 against 115.

Mr. Cobb, after a speech convulsing the House with laughter, offered a resolution declaring Mr. Aiken, of S. C., Speaker.

After the roll had been called Mr. Whitney said he had been informed that his vote would effect an election as he understood Mr. Aiken was not a member of the Administration party, he would change from nay to affirmative. (Deafening applause in the Gallery and on the floor, mingled with impatient cries to declare the vote.) Amidst breathless anxiety the clerk announced yeas 103 nays 110. This unexpected result was received with violent outbreaks of laughter and hisses and applause. Adjourned.

NEW YORK, Feb. 1.

The Tribune's Washington correspondent states that Francis Markoe, of the State Department, will probably be appointed Secretary of Legation. He is an old friend of Mr. Dallas.

FROM WASHINGTON.

Close Voting—Senate Printer—The New Minister to England.

WASHINGTON, Feb. 1st.

House refused by one majority to table Mr. Hoffman's of Maryland, resolution to elect a Speaker by plurality vote. Hoffman's resolution was rejected by only 2 votes, 108 to 110. Mr. Jones, of Tenn., offered as an Olive branch, a resolution that Oliver of Missouri be chosen Speaker.

NEW YORK, Feb. 1st.

The Herald's Washington correspondent telegraphs: A caucus of Senators opposed to the Administration was held this morning. They could not agree on a candidate for Printer, and determined to go into the Senate and support whoever they chose.—When the Senate met the excitement was intense. It is said that the President was near at hand. After the 1st ballot was announced it showed the Union Editors to be in a minority, but Bayard, of Delaware, and Pratt, (whig), of Md., in the 4th ballot, changed front, and Brown, of Mississippi, refusing to vote, Nicholson, of the Union, was declared elected.

Quite a number of democratic Senators exhibited considerable agony in casting their votes.

The Senate then went into executive session. The President having sent in Mr. Dallas's appointment as Minister to England, a motion was made to have it confirmed immediately, but Mr. Clayton of Delaware, objected, and thought it should be referred to the proper committee, in order that Senators might understand his, Dallas' position on important questions respecting our foreign relations.

Mr. Clayton's proposition prevailed, and it was so ordered.

The difficulty between Messrs. Pelton and Valk of New York, which threatened serious results, has been amicably settled. Mr. Dallas accepts the mission to England. He has been requested to go immediately.

Senator Foote of Vermont speaks on Central American affairs on Monday. It is understood he will sustain Senator Seward, in the position he took to-day. Gen. Wilson will make a speech on Central American Question. He will advocate the abrogation of the Bulwer treaty, because no interpretation of it can be agreed upon by the leading statesmen of our own country, and because Great Britain has violated its provisions; he is out and out in favor of recognizing Walker's Government.

INSURANCES IN NEW YORK STATE.—The Comptroller reports thirty-nine fire insurance companies of other States or countries entitled by law to carry on the business of insurance in that State during the year 1855. The amount of property at fire risk at the close of the year 1854, by the joint stock companies in that State and located within its boundaries, was $199,422,647 97, and by mutual companies $158,976,560 63, and by companies located in other States, $79,017,305 42. Total amount at risk, $761,446,413 72. The total premiums paid in cash for the insurance of property in that State last year, was $6,306,473 73, and notes given for premiums, (not premium notes,) $526,163.

The losses which accrued to companies of that State during the year, and were paid, amount to $3,251,247 13. In process of Liquidation, $594,907 58; and $445,493 16 are resisted from various causes.

☞ The opinion of a Lady who knows Frank M. Wever and has bought goods at

WEVER'S
DRY GOOD PALACE
AND
CARPET ROOMS!

Come to the Palace, oh come there with me,
Where Fashion, 'mid splendor, still holds her levee
And smilingly tells you that Beauty is sold,
To youth, or to age, in exchange for their gold;
And their Lady-like charms through life may prolong,
In robes like a Queen's, which sell for a song.
They've shawls for the taste, and shawls for the storm,
They've cloaks which fall softly, so rich, and so warm,
They've carpets of Wilton, of Velvet, and Brussels
They've laces, and 'broideries, ribbons, and tassels,
They've sombre hued goods, for the weeping, and sad,
They've suits like the sunshine, for merry and glad,
They've fabrics for millions, and hold their levee,
For those who pay tribute, or come but to see,
If Palace of Dry Goods, so wonderous grand,
Can be aught but a fable, of old Fairyland;
But those who know Wever, can't doubt for a minute
This glorious Palace, and all that is in it. C. H. G.

Now I blush, indeed I do, what modest married man would not? Yet I console myself with the idea that beauty always pays tribute to worth and merit. Thanking sincerely yet humbly my fair contributor, I trust that by honesty, uprightness and my gentlemanly bearing I may ever command her respect. F. M. W.

HOW TO RAISE MELONS,
And how to Preserve the Plants when young, from Bugs and Worms.
To Farmers.

I WOULD call your attention to a subject which [illegible] of you, and is of considerable importance to [illegible] the culture of the Water Melon. I have made [illegible] business for several years—[illegible] succeeded in growing this delicious [illegible] making it, by culture and choice of [illegible] adapted to its growth, as sure as that of other crops [illegible] against its enemies—the little yellow and striped bug, and the corn or cut worm, I should [illegible] to be able to announce to you my

COMPLETE SUCCESS.

One of the causes of the [illegible] of the Melon crop, is on account of the [illegible] probably, you have [illegible] I have succeeded in securing [illegible] these pests, as safely as though they were not in existence, and in a manner, too, perfectly in accordance with nature. I have experimented rather largely on the [illegible] of preventing the bugs from destroying [illegible] that the plans adopted, if anything [illegible] would injure the plants or vines [illegible] I adopted an entirely new method, which [illegible] the habits of the bugs, in order to [illegible] When I discovered this, I [illegible] plant and planted them between every second or third row of melons. The bugs abandoned the melons for this plant, and they were left to grow as safely as though the bugs were not in existence. The [illegible] about two hours' work on an acre. The method of securing the plant against the corn worm is quite as simple.

It is not necessary to say more on this subject; but I now offer you the direction for the highest culture of the Water and Musk Melon, and the secret of protecting them from their enemies; and also a supply of FIVE VARIETIES OF THE WATER AND SIX MUSK SEEDS, which are, I believe, (having [illegible]) the best grown in the United States, three of the Water and two of the Musk Melons; one of the latter being a nutmeg or cantelope variety. The Water Melons are so selected that they succeed each other in ripening about two weeks; one of them ripens about two weeks earlier than any that I have ever seen. This early melon can be grown as far north as any corn can be grown, as it is a rapid grower and a profuse bearer, and the best one I ever saw or enjoyed the pleasure of eating. I have been to considerable expense in experimenting, and in the collection of the choicest varieties of seed, and also the expense of advertising to secure a quantity, you will have here, and I cannot do it without a price.

Farmers, I know this is valuable, and I believe that you want it; and I cannot charge you less than a dollar. Gentlemen, you must accept [illegible] Inform your orders—enclose a dollar and you will receive in return, the secret for protecting [illegible]—the seed, and the directions for their highest culture here.

If I do not receive a sufficient number of orders to reward me handsomely, I will reserve the right to return every letter with the dollar instead of the directions. I would say to those persons who have forwarded their orders, that they will receive the directions in good time for planting, or receive back their money. Address

ANOTHER TRIUMPH OF HERRING'S SAFES.

MR. SILAS C. HERRING—
Dear Sir:—The safe I bought of you, nearly two years since, has "turned up" all right. We dug it from the ruins in the cellar yesterday. The safe was in the back part of the fourth story of "Totteral's Building," corner of Fifth and Chestnut streets, in the height of the fire of the 15th inst., and fell with the burning timbers a distance of 40 feet. It contained all my books and papers. Not a thing was saved on my premises except the contents of your safe, which effectually resisted all the "the fury of the flames." I am now using the same books and papers.
Yours, truly,

EVARTS'
PATENT SHINGLE MILL

EVARTS & BUTLER,
PROPRIETORS & MANUFACTURERS,
CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the shingle width-wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market, seventy-five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

PIANO FORTE TUNING AND REGULATING,

THE SUBSCRIBER, having engaged the services of Mr. E. T. HURLBUT, a competent and experienced tuner, is now prepared to attend to all orders with which he may be favored. The following testimonial to Mr. Hurlbut's capability is from the director of the celebrated Germania Musical Society

[illegible], March 27, 1855.

It is with much pleasure that I commend Mr. E. T. Hurlbut as a Piano Forte Tuner and regulator. To say that he is an excellent tuner, would not be doing him justice, for I can without hesitation say that he is capable of fitting a Piano as near to perfection as it is possible for a Piano to be tuned; but the greatest recommendation for him is the unusual length of time which his Pianos remain in tune. I have never, either in Europe or America, seen a man whom I would so cheerfully and with so much confidence employ to tune or regulate a Piano Forte as Mr. Hurlbut, and as cheerfully recommend him to all who want Pianos tuned.

Helmbold's Genuine Preparations.
HELMBOLD'S HIGHLY CONCENTRATED
COMPOUND FLUID EXTRACT BUCHU,
FOR DISEASES OF THE BLADDER

and Kidneys, Secret Diseases, Strictures, Weakness, and all diseases of the sexual organs, whether in male or female, from whatever cause they may have originated, and no matter of how long standing.

If you have contracted the terrible disease which, when once seated in the system, will surely go down from one generation to another, undermining the constitution and sapping the very vital fluids of life, do not trust yourself in the hands of quacks, who start up every day in a city like this, and fill the papers with their glaring falsehoods, too well calculated to deceive the young, and those not acquainted with their tricks. You cannot be too careful in the selection of a remedy in these cases.

The Fluid Extract Buchu has been pronounced by eminent physicians the greatest remedy ever known. It is a medicine perfectly pleasant in its taste, and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and poisonous virus of this dreadful disease; and unlike other remedies, does not dry up the disease in the blood.

Constitutional debility brought on by self abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this infallible remedy. And as a medicine which must benefit everybody, from the simply delicate to the confined and despairing invalid, no equal is to be found acting both as a cure and preventative.

HELMBOLD'S HIGHLY CONCENTRATED
Compound Fluid Extr. Sarsaparilla

For purifying the blood, removing all diseases arising from excess of Mercury, exposure and imprudence in life, chronic constitutional disease, arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of scrofula, salt rheum, scald head, ulcerations of the throat and legs, pains and swellings of the bones, tetter, pimples on the face, and all scaly eruptions of the skin.

This article is now prescribed by some of the most distinguished physicians in the country, and has proved more efficient in practice than any preparation of Sarsaparilla yet offered to the public. Several cases of secondary syphilis, mercurial and scrofulous diseases, have entirely recovered in the incurable wards of our public institutions, which had for many years resisted every mode of treatment that could be devised. The cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate diseases after the glands were destroyed and the bones already affected.

NOTICE.—Letters from responsible physicians and professors of several medical colleges, and certificates of cures by patients, will be found accompanying both preparations.

PRICES.—Fluid Extract of Buchu, $1 per bottle, or six bottles for $5. Fluid extract of Sarsaparilla, $1 per bottle, or six bottles for $5—equal in strength to one gallon of syrup of sarsaparilla.

Prepared and sold by H. T. HELMBOLD, Chemist, 263 Chestnut-st., near the Girard House, Philadelphia.

LIFE AND DEATH,
THE
Mysteries of Disease Laid Open to the People.
Health is the Principle of Life—Disease is the Principle of Death.

The R. R. R. Remedies possess the great power to secure to the human system health and long life, and free the human family from pains, aches, and all bodily infirmities.

THE ART OF PRESERVING HEALTH AND THE METHOD OF CURING DISEASE
BY THE R. R. R.'S.

RADWAY'S READY RELIEF

IS TO BE USED in all cases where there is pain. The moment it is applied externally, or taken internally, it will allay the most torturing aches, pains, cramps, spasms, burns, scalds, &c., quicker than Morphine, Chloroform, Veratrine, or any other anodyne or remedy that has ever been used by medical men.

It is safer than these dangerous remedies. The public will bear in mind that Chloroform, Morphine, Opium, &c., only stifle the pain by stupifying the senses, so that the perceptive faculties lose the power of feeling, and that after the influence of these [illegible] have passed from the system—the pain again breaks forth with its terrible pangs, with renewed violence.

Radway's Ready Relief stops the pain and removes the cause of the disease that occasions it; it infuses new life into the weak and diseased parts. It braces the nerves, and establishes in the system a reaction of health and strength, in the place of pain, weakness and disease.

As a counter irritant, Radway's Ready Relief applied to the surface of the body, where there is any inflammation or congestion, it will instantly scatter the congested blood, equalizes the circulation, and in a few minutes the most excruciating pains are removed. This may be seen in cases of Lumbago, Gout, and Rheumatism in their most terrible forms, where an application of Radway's Ready Relief will restore the patient ease and comfort.

Crippled with Rheumatism, Arm and Leg perished—No hopes of his recovery—Timely use of R. R. R.—A wonderful cure.

LETTER FROM ISAAC HUDDLESTONE.
Rapids Parish, La., June 10th, 1855.

Messrs. Radway & Co.—Radway's Ready Relief has cured Peter Bray of Rheumatism, when there was no hope of his ever recovering. I heard of his situation and I sent for him. His right arm and leg was all perished. He had no use of them at all; but by the use of your medicine, in two months he was carrying the mail from Cherryville to Burr's Ferry. I objected: He said he must do something for a living. It has been fourteen months since he was cured. He is now well and working on his farm, and the whole cost of your medicine was five dollars.

An infallible remedy for Scrofula, King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Boils, Ague and Fever, Chronic Sore Eyes, Ringworm or Tetter, Scald Head, Enlargement and pain of the Bones and Joints, Salt Rheum, Stubborn Ulcers, Syphilitic Disorders, and all diseases arising from an injudicious use of Mercury, Imprudence in Life, or Impurity of the Blood.

This great alterative Medicine and Purifier of the Blood is now used by thousands of grateful patients from all parts of the United States, who testify daily to the remarkable cures performed by the greatest of all medicines, "CARTER'S SPANISH MIXTURE." Neuralgia, Rheumatism, Scrofula, Eruptions on the Skin, Liver Disease, Fevers, Ulcers, Old Sores, Affection of the Kidneys, Diseases of the Throat, Female Complaints, Pains and Aching of the Bones and Joints, are speedily put to flight by using this inestimable remedy.

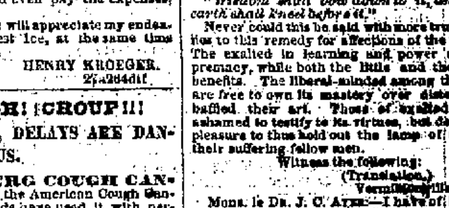

For all diseases of the Blood, nothing has yet been found to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the Liver and Kidneys, strengthens the Digestion, gives tone to the Stomach, makes the Skin clear and healthy, and restores the Constitution, enfeebled by disease or broken down by the excesses of youth, to its pristine vigor and strength.

For the DISEASES OF FEMALES it is peculiarly applicable, and wherever it has become known is regularly prescribed with the happiest effects. It invigorates the weak and debilitated, and imparts elasticity to the worn-out frame, clears the skin, and leaves the patient fresh and healthy; a single bottle of this inestimable remedy is worth all the so-called Sarsaparillas in existence.

The large number of certificates which we have received from persons from all parts of the United States, is the best evidence that there is no humbug about it. The Press, hotel keepers, magistrates, physicians, and public men, well known to the community, all add their testimony to the wonderful effects of this GREAT BLOOD PURIFIER.

Call on the Agent and get an Almanac, and read the details of astonishing cures performed by CARTER'S SPANISH MIXTURE. (IN MOST CASES, WHERE EVERY THING ELSE HAD SIGNALLY FAILED.) The limits of an advertisement will not admit their full insertion.

AYER'S PILLS.

"*Wisdom shall bow down to it, and the great of the earth shall kneel before it.*"

Never could this be said with more truth, than it now applies to this remedy for affections of the Throat and Lungs. The exalted in learning and power acknowledge its supremacy, while both the little and the great can feel its benefits. The liberal-minded among those skilled to cure are free to own its mastery over distempers which have baffled their art. Those of exalted stations are not ashamed to testify to its virtues, but deem it a duty and a pleasure to thus hold out the lamp of their experience to their suffering fellow men.

Witness the following:
(Translation.)
Vermillionville, La., April 1853.

Mons. le DR. J. C. AYER—I have of late made frequent use of your CHERRY PECTORAL in my practice, and am happy to inform you that in no case yet has it failed me. I have made some signal cures of Laryngitis and Bronchitis with it, and have completely cured one case of Asthma, which has withstood every other medicine I could employ. MEDICAL.

DR. WEAVER'S
CANKER & SALT RHEUM SYRUP & CERATE.
IT IS AN UNDISPUTABLE FACT THAT these medicines are the only infallible remedies now before the public for cutaneous Erysipelas, Salt Rheum, Erysipelas, Sore Legs, Ulcers, Old Fever Sores, Scald Head, Scorbutic Eruptions, &c., &c.

Cases that the most eminent Physicians have despaired of relieving, immediately yielded to their curative powers, when used in accordance with the printed directions, which accompany each bottle, the Syrup and Cerate combined eradicates any of the above named diseases, and leaves the sufferer without a blemish. These medicines are too well known to require anything more than a plain statement of facts. The joyful intelligence is reaching us daily from East, West, North and South, of the wonderful cures they are performing.

See what is said by those who have used these medicines:

The Rev. Samuel Henry, of Palmer, Mass., says, "they have done me more good than all the other medicines I have used for Erysipelas."

Capt. William Vail, of the steamer Granite State, says: "they have cured my daughter of Salt Rheum and Scald Head of six years' standing. She was literally covered with sores; is now perfectly cured by the use of the Syrup and Cerate."

Dr. A. J. Johnson, of North Wardsboro, Vt., says, "a Scrofulous disease of the hip joint, and Scald Head in the same child, have been cured by the Syrup and Cerate."

Rev. August Bolles says "it has cured the Salt Rheum in my leg."

J. Harfield Fraser, Esq., editor of the Somerset Whig, Somerville, N. J., says "my mother has been completely cured of a severe case of Tetter of long standing, that had defied the skill of the best Physicians."

Hon. Joel Loomis, of East Lyme, Conn., says, "I was completely cured of Erysipelas in my legs, after a council of the best Physicians in the County had pronounced the disease incurable, (at my age which was seventy-eight years, but Weaver's Syrup and Cerate did the work at once."

Elias Latham, Esq., of Orient, Long Island, N. Y., says, "I hardly know how to express my gratitude to you and your medicines. I have been afflicted for more than thirty years with Salt Rheum in its worst form. I tried several Physicians in New York, Brooklyn and Greenport. I have dieted and taken medicines enough to float a pretty large boat, but they did me no good. I have taken your medicines one year, and am now able to work and sleep without an ache or a pain, and my neighbors say I am the sprightliest man on the Island."

The Rev. J. S. Swan, of New London says, I have used he Syrup and Cerate in my family for more than a year and I consider it completely adapted to sustain the high reputation that is claimed for it. I have seen it used in a number of cases for Salt Rheum and Erysipelas, with entire success.

Ask Seth Prisbery, of Taunton, Mass., what the medicines will do; ask William Barber, of Three Mile Bay, Jeff Co., N. Y., what the syrup has done for him; ask G. F. & W. H. Boynton, of Perkinsville, Vt.; ask F. L. Kent, of Chicago, Ill.; ask Martha Cottle, of Martha's Vineyard, Mass.; ask Wm. F. Kenkins, or Wm. P. Benjamin, Esq., of New London; ask Dr. H. M. Murdock, of Pulaski, N. Y.; ask J. C. Smith, of Brooklyn N. Y., who was cured of Scrofula, after losing his leg by the disease, and suffering for years, has been perfectly cured by the use of the Syrup & Cerate; ask Curtis Burrough, of Shelby, N. Y., who has been cured of a severe case of Salt Rheum; ask Chas. Akin of Hume, N. Y., what the Syrup and Cerate will do for sore legs; ask Winslow and Hafner, Merchants, Virgil, N. Y. what it will do for Fever Sores. In a word, ask every body who has ever tried these wonderful medicines, and the answer will be the same—THEY CURE.

READ AND JUDGE FOR YOURSELVES

PROFESSOR WOOD'S Hair Restorative is no doubt the most wonderful discovery of this age of progress, for it will restore, permanently, grey hair to its original color—cover the head of the bald with a most luxuriant growth—remove at once all dandruff and itching, cure all Scrofula, and other cutaneous eruptions, such as scald head, &c. It will [illegible] periodical headache, make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling to extreme old age. We could give the testimony of more than one hundred thousand to the truth of every word we have written. See circular and the following:

CARLYLE, Ill., June 29, 1853.

I have used Prof. Wood's Hair Restorative, and have admitted its wonderful effect. My hair was becoming, as I thought prematurely grey; but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.
SIDNEY BREESE,
Ex-Senator United States.

VINCENNES, Ind., June 10, 1853.

Prof. O. J. Wood: Dear Sir—As you are about to manufacture extensively and vend your recently discovered Hair Restorative, I will state for whomsoever it may concern, that I have used it and known others to use it; that I have for several years been in the habit of using other hair restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head from dandruff, and with one month's proper use will restore any person's hair to the original color and texture, giving it a healthy, soft and glossy appearance, and all this without discoloring the hands that apply it, or the dress on which it drops. I would therefore recommend its use to every one desirous of having a fine color and texture of hair.
Respectfully yours, WILSON KING

A gentleman of Boston writes to his friends in New Bedford, thus:

To your inquiries I would reply that when I first commenced using Professor Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years and it was very thin on the top of my head, and very loose and pulled out freely; but I found that before I had used the second bottle [illegible] my hair was entirely changed to its original color [illegible] and is now free from dandruff [illegible]

GARDINER, Me., June 20, 1853.

Mr. Dyer: Dear Sir—I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it, I was as grey as a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.
Yours, &c.,
DANIEL N. MURPHY.

St. LOUIS, March 7, 1854.

Prof. Wood:—My hair commenced falling off some three or four years since, and continued to do so until I became quite bald. I tried all the popular medicines of the day, but to no effect. At last I was induced to try your celebrated Hair Restorative, and am happy to say, it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afflicted.

St. LOUIS, June 22, 1853.

Prof. Wood:—As you are about to prepare and vend your recently discovered Hair Restorative, and as you request my opinion of it, I will state that my hair was, a few months ago, very grey; until after using two bottles of your Hair Restorative, it assumed its original color, and since its application all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied those who use it will not regret it, as it gives the appearance of having been recently oiled. I am prepared, therefore, to recommend its use to all who are desirous of having a beautiful head of hair. [illegible] I am, sir, yours, &c.,
